It is our Nursery's highest priority to ensure we continue to take action that keeps everyone who attends or visits our nursery safe throughout these crucial times to help stop the spread of COVID-19.

Our nursery has committed to follow daily Government mandates as well as building on our own safety measures. We will be in touch with further updates each time we are aware of them and aim to stay open to support those families who still need us.

Stay Safe!

Regards,

Debbie Simon-Managing Director
